- Check-in will include all Open Texas screening requirements.
- Participants/Judges/Staff will wear a mask while competing in events, while waiting in lines, and when participants aren't able to social distance during the event.
- Handwashing/ hand sanitizing stations, trash cans, cleaning/sanitizing supplies, and disposable masks and gloves will be provided near each event and food area.
- If possible, each event area will be sectioned off and only current event participants, judges, and staff should enter the area. There will be a staging area for on deck participants.
- If possible, a rotation of identical equipment to allow time for sanitation will be used to keep the event moving quickly. Backpack blower, nail driving, zero turn, and irrigation are best suited for this option.
- When multiple stations are not an option, time between competitors will allow for disinfectants to work according to product instructions and all event equipment/spaces will be sanitized between each participant.
- Nail Driving: Each participant should bring their own face shield, but shields will be available if needed.
- Plant Identification rooms will be set up to allow proper social distancing which could mean limiting the number of participants at each time slot. Plants will not be touched or sanitized.
- Truck & Trailer competition will be completed with all windows down, and air conditioner/ heater off.
- Equipment will only be fueled by judges or designated staff.
- Judges will keep their own clipboard with scoresheets/judging supplies throughout the entire event. The head organizer/POPS chair will collect scoresheets for official results announcements.
- Judging equipment/supplies will be sanitized by judges before returning it to the event organizers.
- Meals will be served individually packaged and participants will wear masks while in line for food service.
